

# Comfort fishing knives

Mora of Sweden has a great deal of expertise and experience in producing butcher knives for professional use, which has been a great benefit when developing Morakniv™ Fishing Comfort.

The result is a series of fishing knives with comfortable grips that are safe and efficient to use when cleaning and filleting fish.

**Morakniv™ Fishing Comfort 893** – short filleting knife with a blade of cold-rolled special stainless steel from Sandvik. Patterned high-friction grip handle. Blade length 103 mm. Plastic sheath.

**Morakniv™ Fishing Comfort 896** – long filleting knife with a blade of cold-rolled special stainless steel from Sandvik. Patterned high-friction grip handle. Blade length 155 mm. Plastic sheath with a belt clip.
