

Mora Camp Axe 1991

Axe head of black epoxy coated boron steel. Reinforced plastic handle. Leather sheath. Weight 0,5 kg.

Mora Diamondsharpener 36 Fine

A fine (600) diamond sharpener used to keep knives and axes in good shape. Comes in a robust leather case.

Mora Diamondsharpener Medium

Course (400) diamond sharpener used to keep knives in good repair. Due to its cylindrical blade, it is also suitable for the Morakniv™ Hunting Belly Opener knife. Comes in a robust leather case.

Mora Combi 2001 – gift box.

An appreciated gift. This adaptable axe – Mora Camp – only weighs 0,5 kg. Axe head of black epoxy coated boron steel. Reinforced plastic handle. Leather sheath. The knife – Morakniv™ 2000 – has a profile-ground blade of cold-rolled special stainless steel from Sandvik and a patterned high-friction grip. Blade length 115 mm. Plastic sheath with a flexible leather strap.

Morakniv™ Hunting Belly Opener

Blade of cold-rolled special stainless steel from Sandvik with inside edge. Plastic handle. Blade length 66 mm. Leather sheath.
