

Allround knives

Morakniv™ Allround includes everything from ergonomically designed knives for professionals to simpler utility knives. No matter your preference, the knife you receive will maintain consistent, high-level quality, be sharp and have maximum edge lifetime.

Morakniv™ Viking 640 and 660 – sharp, durable utility knife. Used by professionals within the construction and industrial sectors for a number of different tasks. Plastic handle. Blade of carbon steel (640) or cold-rolled special swedish stainless steel from Sandvik (660). Blade length 100 mm. Black plastic sheath.

Morakniv™ Clipper 840 and 860 – very adaptable and sharp knife with a patterned high-friction grip handle. Widely used within construction and industry. Blade of carbon steel (840) or cold-rolled special swedish stainless steel from Sandvik (860). Black plastic sheath with a belt clip. Blade length 100 mm.

Morakniv™ 711 and 746 – a knife that has been developed for and in collaboration with demanding professionals within the construction and industrial sectors. Its patterned high-friction grip and ergonomically designed handle facilitate work and prevent work-related and repetitive strain injuries. Tolerates blows, and has substantial finger protection. Blade of carbon steel (711) or cold-rolled special swedish stainless steel from Sandvik (746). Black plastic sheath. Blade length 100 mm.

Morakniv™ 731 and 748 – the choice of carpenters. It has an extra long blade and a patterned high-friction grip. The handle is ergonomically designed, which facilitates work and prevents work-related and repetitive strain injuries. Impact resistant, and has substantial finger protection. Blade of carbon steel (731) or cold-rolled special swedish stainless steel from Sandvik (748). Black plastic sheath. Blade length 148 mm.

Morakniv™ 2000 – high-quality knife with a profileground, multi-functional blade as well as a patterned high-friction grip handle. Able to handle everything from fine carpentry work to cable scaling, which makes this knife a favorite among carpenters, electricians and construction workers. Blade of cold-rolled special swedish stainless steel from Sandvik. Green plastic sheath with a flexible leather strap. Blade length 115 mm.
