

Classics with finger protection

Morakniv™ Classic with finger protection is used extensively within the paper and pulp industry.

Morakniv™ Classic 601 – has double finger protection. Birchwood handle. Carbon steel blade. Plastic sheath. Blade length 100 mm.

Morakniv™ Classic 612 – has ordinary finger protection. Birchwood handle. Carbon steel blade. Plastic sheath. Blade length 110 mm

Classics – with birchwood handles and laminated steel blades

Morakniv™ Classic Original – this is what a true Morakniv™ looked like before it received its characteristic red handle. The original is still going strong in its role as a functional utility knife. It has also become a collector's item and an exclusive souvenir.

Morakniv™ Classic Original 2/0 – oiled birchwood handle. The knife's laminated steel blade provides it with unsurpassable toughness and superior edge resiliency. The knife has a long lifetime and maximum sharpness. It comes with a sheath of vulcanized fiber. Blade length 75 mm.

Morakniv™ Classic Original 1 – oiled birchwood handle. The knife's laminated steel blade provides it with unsurpassable toughness and superior edge resiliency. The knife has a long lifetime and maximum sharpness. It comes with a sheath of vulcanized fiber. Blade length 100 mm.

Morakniv™ Classic Original 2 – oiled birchwood handle. The knife's laminated steel blade provides it with unsurpassable toughness and superior edge resiliency. The knife has a long lifetime and maximum sharpness. It comes with a sheath of vulcanized fiber. Blade length 110 mm.
